

MEDICARE DIABETES PREVENTION PROGRAM (MDPP) RESOURCE SHEET

The [Medicare Diabetes Prevention Program](#) (MDPP) expanded model includes an evidence-based set of services, CDC's [National Diabetes Prevention Program](#), to help prevent type 2 diabetes in individuals with an indication of prediabetes. MDPP is available to eligible Medicare beneficiaries nationwide beginning April 1, 2018 under a performance-based payment model through the CMS Innovation Center.

National Diabetes Prevention Program suppliers who hold preliminary or full recognition status with CDC's [Diabetes Prevention Recognition Program](#) may enroll as MDPP suppliers. Below is a list of resources to help inform the enrollment process.

[View this map](#) for locations of Medicare-enrolled MDPP suppliers from which eligible Medicare beneficiaries may be furnished MDPP services. Beneficiaries with Medicare Advantage plans are advised consult their health plan to identify the specific MDPP suppliers that are available with no cost sharing. Suppliers wishing to update or correct information displayed on this map should contact the MDPP mailbox at MDPP@cms.hhs.gov.

IMPORTANT MEDICARE DPP DATES

- January 1, 2018:** Enrollment began for eligible suppliers
- April 1, 2018:** Medicare reimbursement began for eligible beneficiaries
- July 2018:** First MDPP sites listed on [supplier map](#).
